

Full Suite.

Everything you need
to validate your study.

Upgrade to Full Suite for a comprehensive CRF management system, including smart tools for automated data validation and real-time analytics.

Light CRF

Cloud-enabled and designed for easy data entry, the Light version of our CRF reduces errors, delays, and costs.

Enhanced quality controls

Full Suite includes Data Validator, with smart alerts, instant compliance checks, and quick data cleanup for monitors and data managers.

Real-time analytics

Report Builder comes standard with Full Suite, making data instantly available and easy to visualize, with interactive plots and drag-and-drop chart tools.
