

Global Suite.

No lost data.

No lost time.

Nothing lost in translation.

Now Catchtrial is built for global trials, with on-the-fly translation and the power of Google's infrastructure. Instant translation, faster load time, and enhanced security - in every region around the world.

Our most powerful suite

Get the most from Catchtrial, with real-time analytics, fully-integrated image capture, easy online adjudication and more.

On-the-fly translation

Change the language of the entire interface with the flip of a switch. Available in Japanese, Chinese and additional languages upon request.

Google Cloud Platform

Work up to five times faster* with the power of Google's infrastructure - stable, secure and global.

* Based on comparisons to past versions of Catchtrial running on other platforms.
